

# Spelling Lists

The word lists contained in this ebook were generated using the spelling list generator at <http://www.brendenisteaching.com/gen/wordlist>

The lists here are altered slightly in that some words have been excluded, including those that are simply plurals of other words, past or present tense. (-s, -ed, -ing)

They are presented here for use as teacher's aids, not as photocopiable worksheets, and as the words have been generated from an actual dictionary, it is up to you to filter them so they are suitable for your class. Every effort has been made to filter out inappropriate words.

You have permission to photocopy or print any pages in this document as many times as you like. Paste them on your walls, print them out as gifts to faraway relatives, stretch them onto A3 and make posters out of them, cut them up to make word collages, put the ebook on your website, email it to your grandmother. Use your imagination. You are **not** free, however, to distribute the pages or copies thereof to anyone else **if** you have removed the website address on the bottom of the page, and you're especially not free to replace the address with anything else.

Make sure to visit <http://www.brendenisteaching.com/gen/wordlist> to make sure you've got the newest version!
